**CARBON FREE  
POWER PROJECT**

### CFPP Project Update

January was a pivotal month for the Carbon Free Power Project. With adoption of the Class 3 Engineers Cost Estimate, a new Budget and Plan of Finance was developed with a new Economic Competitive Test (ECT) target of \$89/MWh. Project participant governing bodies have until February 17 to review and approve the Budget and Plan of Finance and confirm their status in the project.

*Dr. Shawn Hughes*
