Application Details

UAMPS is administering this incentive program for its participating energy partners. Please reference the program website at: smartenergy.uamps.com or by calling 1-888-365-1558 to determine your eligibility. All equipment must be new and have been purchased and installed prior to submitting an incentive application. Applications must include all information requested. Incomplete applications will be returned causing delay or denial of the incentive.

UAMPS reserves the right to conduct random inspections to verify information provided on the application. If UAMPS inspects the equipment, the incentive application will not be processed until the inspection has been satisfactorily completed. UAMPS reserves the right to inspect and/or install temporary air conditioning monitoring equipment on any installation of qualifying equipment at any time up to 24 months after installation for quality control of the application or program performance evaluations. Incentive qualifications and amounts are subject to change and termination at any time. Participating energy partner's customers should visit the program website at: smartenergy.uamps.com or **contact your local dealer to determine whether program changes have occurred.**

Customer agrees to transfer to its participating energy partner all "environmental attributes" attributable to the qualifying equipment or its operation. Environmental attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by electric utility's generating facilities, through reduced generation of energy or other savings or offsets on account of the qualifying equipment or otherwise. Customer will not claim ownership of any environmental attributes.

All incentives are issued in the form of checks not utility bill credits. UAMPS and your energy partner are not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and your participating energy partner will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications.
